SUFFOCATION HAZARD

Infants have suffocated

- In gaps between extra padding and side of the bassinet/ cradle, and
- On soft bedding

Use only the pad provided by manufacturer. NEVER add a pillow, comforter, or another mattress for padding.

WARNING:

Failure to follow these warnings and instructions could result in serious injury or death of your infant.

Suffocation Hazard. Discard all packing materials immediately after opening. Plastic bags and packaging may cause suffocation or choking.

NEVER LEAVE your child unattended in the babybay® bassinet

IMPORTANT! Check this product for damaged hardware, loose joints, missing parts, or sharp edges before assembly and periodically during use. DO NOT use if any parts are missing, damaged, or broken.

Contact TOBI USA LLC for replacement parts and instructions if needed. NEVER substitute parts.
(Call 1 (844) MY-BABYBAY or email info@babybay.us)

IMPORTANT! Be sure to put the mattress pad in the liner, not under the liner. Discontinue use of the products when child is able to climb out or reaches the height of 35in. When child is able to pull up to standing position, remove bumper pads, large toys and other objects that could serve as steps for climbing out.

Specification: Only for an infant up to approximately 5 months in age or when the child begins to push up on hand and knees, whichever comes first.

STRANGULATION HAZARD: When anchor plate and strap assembly is not in use, store in a safe place not accessible to children.

DO NOT place product near a window where cords from blinds or drapes may strangle child.

WARNING:

Failure to follow these warnings and Instructions could result in serious injury or death of your infant.

Strings can cause strangulation! DO NOT place items with a string around a child's neck, such as hood strings, or pacifier cords. DO NOT suspend strings over the bassinet or a cradle, or attach strings to toys.

Keep babybay® bassinet away from stoves, heaters, campfires and other hazards. DO NOT allow children to climb or play on or under unit in any configuration. Always provide the supervision necessary for the continued safety of your child. NEVER LEAVE CHILD UNATTENDED. DISCONTINUE using your babybay® bassinet should it become damaged or broken. Periodically check your product to make certain all screws, nut, rivets or bolts are tightened securely.

DO NOT use a water mattress with this product. If refinishing, use a nontoxic finish specified for children's products. It is sufficient to clean varnished beds with a damp cloth. Dirt or scratches can easily be removed with sandpaper from beech wood untreated beds. Mattress pad and babynestcan be hand washed up to 86° F.

- Make sure the mattress pad is dried properly.
- Exception: the mattress pad made of coconut – fibers is not washable.
- Turn and air the mattress pad regularly to avoid marks caused by mold.
- Guarantee is only valid if above mentioned maintenance is followed.

Important notes – Preserve for later use – Read carefully
babybay® has to be positioned on a flat surface.

Little children must not play around babybay® unattended. If the child can sit up, push up onto hands or knees, or pull itself up, babybay® is not to be used for sleeping for this child any longer. All parts must be fastened appropriately. Loose screws can cause baby's clothing e.g. cords, collars, etc.) to get caught, which can cause strangulation. babybay® is not to be used, if there are any broken, damaged, or lost parts, until it has been repaired appropriately. Because of the unique shape of the babybay® bassinet you must only use babybay® mattress pads and sheets. Never position babybay® near open fire or other strong heat sources like electric radiant heaters, gas furnaces, etc.

WARNING:

Failure to follow these warning and the instructions could result in serious injury or death.

FALL HAZARD

To help prevent falls, do not use this product when the infant begins to push up on hand and knees or has reached 30 pounds, whichever comes first.

To reduce the risk of SIDS, pediatricians recommend healthy infants be placed on their backs to sleep, unless otherwise advised by your physician.

If a sheet is used with the pad, use only the one provided by the bassinet or cradle manufacturer or one specifically designed to fit the dimension of the bassinet or cradle mattress.

Please read additional Warning Labels found on platform of the babybay® bassinet (see diagram below)

- 1.** Insert the anchor tension springs (Part #1230), followed by the screws (Part #1211) into the holes on the front of the guardrail. Secure each screw into the guardrail latch hook (Part V) by tightening them until the top of each screw is even with the guardrail as shown.
- 2.** Remove the 2 screws securing the baby barrier to the bed plate.
- 3.** Position the guardrail so the guardrail anchors face the open side of the babybay® bassinet as shown. Place the guardrail onto the bed plate, making sure the locator pins on the bottom on the guardrail fit into their corresponding holes. Note: guardrail latch hook (Part V) should be facing down.
- 4.** With the guardrail latch hook (Part V) facing down, pull the guardrail latch out and then turn it so it securely latches to the babybay® bassinet as shown.
- 5.** Insert and firmly tighten the 2 screws (Part #1211) through appropriate holes on the bottom of bed plate and into the bottom of the guardrail.
